Knowledge Compass www.kc-inc.us

The National Examination Board in Occupational Safety and Health (NEBOSH) is an independent awarding body based in the UK attracting 25,000 candidates each year worldwide. NEBOSH qualifications are recognized and respected by employers in all industry sectors on an international scale and provide the benchmark standard in health & safety.

NEBOSH qualifications are recognized by the relevant professional membership bodies including the Institution of Occupational Safety and Health (IOSH) and the International Institute of Risk and Safety Management (IIRSM).

What are the benefits from NEBOSH HSW Qualification?

- **Get a safer workplace:** health and safety is important. Its protect people from injury and loss of life.

The NEBOSH HSW Qualification gives vital health and safety know-how so people can make a difference and help reduce accidents, control costs, protect your reputation and avoid legal action.

- **Assurance:** An employer whose staff is NEBOSH qualified is an employer that is committed to health and safety.

The NEBOSH HSW Qualification provides an assurance of safety – something that can help you achieve recognized standards and can even help you win new business.

- **Return on investment:** An employee with a NEBOSH HSW Qualification has a practical set of skills that will bring real value to your workplace.

This qualification tests these practical skills in your workplace right away.

What does the course cover?

The three day course is the perfect introduction to health and safety.

It covers risk assessments and ways to control common workplace hazards such as fire, lifting and carrying, work equipment, electrical safety, hazardous substances and transport.

Pre-requisites

There are no prerequisites for this qualification.

The qualification NEBOSH HSW has allowed me to deepen my knowledge in the field of health and safety and quickly find a good job in Dubai. I would recommend this to anyone who wants to work qualification in this field in the Middle East. "

Mr Mohab Bakri – HSE Manager - Palm Hills

Who should attend NEBOSH HSW Qualification?

Anyone who needs to understand the basic principles of health and safety as part of their job.

The Qualification is particularly relevant to:

- Team leaders and supervisors
- High level operators/skilled workers
- HR management and staff
- Facilities managers
- Line Managers
- Employees with Health & Safety duties

Structure

The qualification is divided into two units:

- HSW1 (Workplace safety foundations)
- HSW2 (Workplace risk assessment).

• Unit HSW1 Workplace safety foundations

Unit HSW1 is a taught unit, assessed by a one hour multiple choice examination. It is divided into a number of elements:

1. The foundations of health and safety,
2. The responsibility for health and safety,
3. Health and safety risk assessment and control,
4. Hazards and control associated with work equipment,
5. Transport safety,
6. Hazards and control associated with electricity,
7. Fire safety,
8. Hazards and control associated with manual handling and repetitive movement,
9. Hazards and control associated with hazardous substances,
10. Hazards and control associated with the working environment.

• Unit HSW2 Workplace risk assessment

Unit HSW2 is the workplace-based risk assessment activity. It is assessed by a one-hour practical assessment carried out in the candidate's own workplace.

This is held on a date set by the accredited course provider and must be taken within 14 days of a multiple choice examination.
